

Previous Commit

The diagram consists of three vertically stacked text labels: 'Previous Commit', 'Working Tree', and 'Staging Area'. To the left of these labels are two large, thin, black curved lines that group them. The top line connects 'Previous Commit' and 'Working Tree'. The bottom line connects 'Working Tree' and 'Staging Area'. To the right of the labels are two lines of red text: 'git diff HEAD' next to 'Previous Commit' and 'git diff --cached' next to 'Working Tree'. Below 'Working Tree' is another line of red text, 'git diff', which is not connected to any line.

`git diff HEAD`

Working Tree

`git diff --cached`

`git diff`

Staging Area
